The brand new Toyota Yaris

Remember the first time you fell in love with Yaris? Well, now there's a new Yaris that's bigger, so there's even more to adore.

It's not just the size that's changed. New Yaris has a sporty new shape - though it's still recognisably the Yaris you know - and the extra room means there's space for some exciting new features. As for the engineering, new Yaris has been put together with all the perfectionism and attention to detail you expect of Toyota - and then a little bit more.

We've taken delivery of a selection of new Yaris' to show to a selected list of customers by invitation only, in advance to the public launch at the end of February. We have also modified one of our models to make a special one off sports experience. As someone who's already fallen in love with Yaris once, we'd like to give you the chance to do it all over again. So we'd be delighted to welcome you for a preview and a test drive over our invitation only launch weekend on the 3rd, 4th and 5th of February 2006.
